- (b) The basic need of each school district is determined by multiplying the instructional unit allotment of the district as defined in sec. 51 of this chapter by the number of instructional units in the district.
 - (c) The equalized percentage for each school district is computed according to the formula Pi = 1-(1-K) V_i / V_s in which
 - (1) Pi (equalized percentlige) = per cent of need to be provided by the state; ...
- (2) K (minimum level of state support of basic need) = 97 per cent; (am Sec. 1 clt 173 SLA 1976; am Sec. 3 ch 90 SLA 1977)
- (3) V₁ (valuation per pupil in average daily membership in the district) = full and true value of taxable real and personal property within the district divided by the average daily membership of the district;
- (4) \dot{V}_{S} = average of the valuation per pupil in average daily membership for all the districts of the state;
- (5) state ald as computed under this section constitutes at least 97 per cent of the basic need, as defined by the department, of each school district. Sec. 4 ch 238 SLA 1970; am Sec. 1, 2 ch 81 SLA 1975; am Sec. 2 ch 173 SLA 1976; am Sec. 3 ch 90 SLA 1977)

Sec. 14.20.630. Terms and provisions of agreement. The terms and provisions of the agreement referred to in sec. 620 of this chapter are esfollows:

Interstate Agreement on Qualification of Educational Personnel

Article 1. Purpose, Findings, and Policy.

- (1) The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.
- (2) The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this compact can increase the availability of educational manpower.

If more than one guardian is appointed, the allowance, including the 10 per cent additional allowance, shall be paid according to the number of minor children assigned to each guardian. (am Sec. 10 ch 128 SLA 1977)
- (c) The survivor allowance is payable on the first day of each month, beginning the month following the death of a teacher. The survivor allowance shall be recomputed on the first day of the month in which the number of minor children is less than four and the pension shall be decreased accordingly. Sec. 14.40.901: Purpose intent. (a) The legislature finds and declares that is has become essential for Alaska to provide for a more efficient use of financial resources, both federal and state, in providing postsecondary educational services to its citizens. Thus, the state should create a more closely articulated system of planning for postsecondary education, with special reference to occupational education and the unique contribution made by the community colleges. The objective of secs. 901-915 of this chapter is the coordinated, comprehensive planning for postsecondary education in Alaska, encompassing public, private and proprietary postsecondary educational institutions and agencies in the state, in order to lessen the disparate planning efforts of the several state agencies and others now planning one or more element's of post-secondary education. At the same time, the Education Amendments of 1972 (PL 92-318) affords the state the opportunity to draw together programs widely scattered outside the statewide university system but which are related to postsecondary, and especially higher, education that would be more effectively administered by a more visible single agency and thus more clearly and directly accountable to the legislature and to the people of Alaska.

- (b) The legislature affirms that the legal authority for the operation and management of the statewide university system remains with the Board of Regents of the University of Alaska and the legal authority for the operation and management of other postsecondary educational programs remains with the governing boards of the other private nonprofit and proprietary institutions in the state. - Expenditure of state and federal money for school construction

Section

- 60. Apportionment of federal aid granted without limitations as to use
- 70. Use of line item appropriations for matching purposes
- 80. Consent to reasonable conditions

Sec. 14.50.010. Acceptance of federal funds. The legislature assents to federal aid under Public Law 85-864, 72 Stat. 1580, 85th Congress on behalf of the state. The commissioner of education may do all things necessary to cooperate with the United States government to participate under the Act and any Act amending or supplementing it, subject to prior concurrence of the governor. (Sec. 1 ch 27 SLA 1959)

Sec. 14.50.020. Definition of public schools for purposes of Statehood Act. Public schools, for the purpose of Public Law 85-508, 85th Congress, Second Session, includes public elementary schools, public high schools, the University of Alaska and other public educational institutions which may be established. Nothing in this section includes schools for Alaska aborigines under the control of the federal government and which are administered and supervised through the Department of the Interior or the United States Department of Health, Education, and Welfare. (Sec. 1 ch 88 SLA 1959)

Sec. 14.50.030. Declaration of intent. If the United States Congress enacts legislation making federal money available to the states for teachers' salaries, school construction and other educational purposes it is the desire of the legislature that the governor or the state Board of Education as the federal law may require have sufficient flexibility in the use of money appropriated to the Department of Education to meet all reasonable federal requirements for obtaining the full amount of federal money which may be obtained by the state under such a federal aid program. (Sec. 1 ch 78 SLA 1961)

Sec. 14,50,040. Expenditure of state and federal funds for teachers' salaries. If the United States Congress enacts legislation, when the state legislature is not in session, making money available to the state for teachers' salaries, the governor or the board as the federal law may require may accept and use part or all of the federal money made available to the state to increase teachers' salaries according to a minimum salary schedule to be arrived at by the board. The governor or the board as federal law may require may use money appropriated by the legislature for teachers' salaries for matching purposes and may expend federal money so obtained for increased teachers' salaries in addition to state money already appropriated for that purpose. Any modified state minimum salary schedule arrived at as a result of receiving federal money may be put into effect by executive order signed by the governor or by order of the board, whichever appears to be the most nearly proper under federal law. This minimum salary schedele shall remain valid under the order until it is altered or approved in full by the legislature. The term "teacher" for the purposes of sec. 30--80 of this chapter includes teachers, school superintendents and other public school employees covered by the state minimum salary schedule who would be qualified to receive federal money through the state. (Sea, 2 ch 78 SLA 1961)

Sec. 14.50.050. Expenditure of state and federal money for school construction. If the United State Congress enacts into law legislation making money available to the state for school construction while the legislature is not in session, the governor or the board as the federal law may require may accept and use the federal money and apply it to the cost of constructing and improving school buildings

and facilities to the extent that construction and improvement is authorized by the legislature when federal money becomes available. If a condition to receiving federal money for school construction is that the state increase its expenditures for that purpose over expenditures authorized by the legislature at the time federal money becomes available, the governor or the board as the federal law may require may use money appropriated by the legislature for school construction for matching purposes and may make further federal money available for school construction in addition to state money already appropriated for that purpose. To the extent practicable expenditure of state and federal money shall be limited to projects already programmed by the department and authorized by the legislature at the time federal money becomes available. (Sec. 3 ch 78 SLA 1961)

Sec. 14,50.060. Apportionment of federal aid granted without limitation as to use. If federal money is made available to the state without limitation or restriction as to the educational purposes for which it may be spent or if the federal money is made available to the state for alternative educational purposes, including payment of teachers' salaries, the governor or the board as the federal law may require may use a percentage of the money, not to exceed 50 per cent, for increasing teachers' salaries in conformity with a minimum state salary schedule to be adopted by the board. The governor or the board as the federal law may require may use the remainder of the money to supplement existing educational programs. (Sec. 4 ch 78 SIA 1961)

Sec. 14.50.070. Use of line item appropriations for matching purposes. The governor or the board as the federal law may require may direct the use of any state money appropriated in any line item for the department to match federal money appropriated in any line item for the department to match federal money which will be made available to the state for substantially the same purpose or program as the money appropriated by the line item at whatever matching ratio is established for the federal money. (Sec. 5 ch 78 SLA 1961)

Sec. 14.50.080. Consent to reasonable conditions. The governor or the board as the federal law may require may accept all reasonable conditions which may be required by the federal government as a condition to receiving federal money for educational purposes. (Sec. 6 ch /8 SLA 1961)

Definitions 90. Nonfood assistance 190. Short title 100. Nutrition education

Sec. 14.52.010: Findings. (a) .The legislature finds and declares that

- (1) the proper nutrition of the state's children is a matter of highest priority;
- (2) there is a demonstrated relationship between the intake of food and good nutrition and the capacity of children to develop and learn;
- (3) che teaching of the principles of good nutrition in schools has been seriously inadequate, as evidenced by the existence of poor or less than adequate diets at all levels of family income;
- (4) any procedums or "means test" to determine the eligibility of a child for a free or reduced price meal is often degrading and injurious both to the child and his parents; and
- (5) the national school lunch and related child nutrition programs, while making significant contributions in the field of applied nutrition research, are not, as presently constituted, capable of achieving the goal of good nutrition for all children.
- (b) The assurance of proper nutrition for our children is a public concern. The legislature urges that, when possible, assistance be provided from all available state and local sources to children in nonprofit nrivate schools and in nonpublic, nonprofit service institutions, as well as to children in the state's public schools, so that they may receive the full benefits of the programs authorized under this chapter. Nevertheless, in situations where this assistance is not forthcoming in adequate amounts the schools and institutions may require of parents a registration fee to help finance the operation of food service programs. (Sec. 1 ch 187 SLA 1972)
- Sec. 14.52.020. Policy; legislative intent. (a) It is the policy of the state to assure adequate nutrition offerings for the state's children, to encourage the teaching of the principles of good nutrition as an integral part of the total educational process, and to strengthen state and local administration of food service programs for children. It is also the policy of the state that food service programs conducted under this chapter be available to all children on the same basis without singling out or identifying certain children as different from their classmates.
- (b) It is the intent of the legislature that insofar as the food service and nutrition education programs of city or borough school districts, or of the state-operated schools are affected by this chapter, the directives of this legislation are guidelines; the policies of this chapter are permissive and not mandatory.

(c) It is the intent of the legislature in enacting this chapter to implement the federal Child Nutrition Act of 1971 and authorize the state's participation in this program. (Sec. 1 ch 187 SLA 1972)

Sec. 14.52.030. Pood service program for children established. (a) The commissioner shall formulate and administer cooperatively with appropriate federal, state and local agencies a universal food service and nutrition education program for children in the schools of the state and in service institutions conducting programs for the benefit of all children. To the fullest extent practicable, the commissioner shall utilize the available services and expertise of other related federal, state and local departments and agencies, school districts and private organizations concerned with nutrition and nutrition education in the formulation of program requirements and regulations. The program shall be designed to provide each child an equal opportunity to participate on the same basis as all other children with no discrimination as to time or place of serving or types and smounts of foods offered.

(b) On recommendation of the advisory commission established under sec. 170 of this chapter, the commissioner shall promulgate regulations to carry out the purposes of this chapter, incompliance with the Administrative Procedure Act (AS 44.62) and applicable federal statutes and regulations. The commissioner shall cooperate with the federal government and do all things necessary to continue state eligibility under that Act or any Act amending or supplementing it, subject to prior concurrence of the governor.

- (b) If the United States Congress enacts legislation making federal money available to the states for a universal food service and nutrition education program for children under the Child Nutrition Act of 1971, it is the desire of the legislature that the governor or the commissioner of education, as federal law may require, have sufficient flexibility in the use of money appropriated to the Department of Education to meet all reasonable federal requirements for obtaining the full amount of federal money which may be obtained by the state under this federal aid program. To the extent applicable, the provisions of AS 14.50 and incorporated by reference in this chapter.
- (c) For the first and second fiscal years of operations under this chapter, expenditures from funds appropriated to the department under this chapter, other than for the purchase or acquisition of land or for the cost of construction or alteration of buildings, shall constitute at least 10 per cent of total operating costs of the program. For the third fiscal year, the state share shall be increased to 12 per cent of operating costs and shall be increased by two per cent every second year the eafter to reach a maximum of 20 per cent. For each fiscal year of operations under this chapter, it is desirable expenditures by schools, would district and service institutions, other than for the purchase or acquisition of land or for the cost of construction or alteration of buildings, constitute at least five per cent of total operating costs of the program.
- (d) The commissioner may make agreements with the appropriate federal departments or agencies to enable participation in the programs authorized by the Child Nutrition Act of 1971. The commissioner shall incorporate, in his agreements with the federal government, the express requirements under this chapter insofar as they may be applicable and those provisions as in his opinion are reasonably necessary or appropriate to effectuate the purposes of this chapter. Additional meals or supplemental food services before, during or after the school day may be offered to all children in attendance based on economic or nutritional needs.
- (c) No affidavir nor certification is required of any parent or guardian in order that a child take part in the food service program operated by the school or service institution.

- (e) The department shall determine the eligibility of applicant schools and service institutions to participate in programs authorized under this chapter and applicable federal legislation, shall determine their need for assistance to carry out the purposes of this chapter and shall establish controls to insure effective use of funds.
